Web Site Report

Our Web Master Dan Roy has been diligently working on getting the Ontario Square and Round Dance Federation up and running. We learned a lot through this process. Not only does the platform have to change but links and updates have to be made simpler. What we learned was that changes to items on the site policies procedures grants applications etc need to be made prior to conversion to the new system. The new system allows tablet users and phone users to access the site on these devices .

Other changes such as links to provincial sites (association) will make future updating much simpler. Provinces with their associations should be updating their sites on a more regular basis. That way an updated list of callers, cuers and clubs should be more available and should be easier to keep up to date. This process may take several months.

We will be working with the publicity committee to coordinate our efforts.

Respectfully submitted,

Peter Piazza
