Convention Coordinator's Report

It has been a tough couple of years for the Convention committee to organize and get the word out for this year's convention in Fredericton, NB. The Chair couple Terry & Melonie Hebert and their dedication committee have done an extraordinary job putting this event together.

Currently there has been no submission for the next convention but it is very possible to organize and plan a convention in two years from now. This year's convention committee has proved it can be done.

See you across the square.
